

Danfoss Secop BD35F 101Z0200 DC compressor technical specifications and 12V 24V, 1/8 hp

Category: Refrigeration

written by www.mbsmpro.com | January 16, 2026

The Danfoss Secop BD35F 101Z0200 is the industry standard for DC mobile refrigeration. Engineered for 12V and 24V systems using R134a, this compressor offers variable speed performance from 1/8 to 1/5 hp. This Mbsmpro technical guide explores its electronic control unit, wiring schemas, and cooling capacities for trucks, boats, and solar-powered appliances.
