

ZMC GL45AN Compressor - R134a, 1/8 HP, LBP

Category: Refrigeration

written by www.mbsmpro.com | January 19, 2026

The ZMC GL45AN is a hermetic refrigeration compressor designed for R134a systems in cooling and light freezing applications. With a 1/8 HP motor, LBP operation, and RSIR electrical design, it delivers stable performance, low noise, and high reliability for domestic and light commercial refrigeration equipment.
