

Excellent GS66AZ Compressor Technical Specifications, BIG 1/6 HP, 6.6 cm³

Category: Refrigeration

written by www.mbsmpro.com | January 19, 2026

The GS66AZ compressor from Excellent is a workhorse in the domestic and light commercial refrigeration sector, engineered for reliable performance in low-temperature applications such as standard freezers and smaller display units. This hermetic reciprocating unit operates using the widely available R134a refrigerant, making it a highly serviceable component globally.

ACME Flare Types

Category: Equipment

written by www.mbsmpro.com | January 19, 2026

Refrigeration compressor thread connections are critical components in HVAC systems. Understanding ACME flare specifications, including 7/8" suction, 5/8" discharge, and 1/2" process ports, ensures proper equipment selection, safe installations, and efficient cooling operations in industrial refrigeration applications.

BASIC TN1900 Refrigerator Compressor

Category: Refrigeration

written by www.mbsmpro.com | January 19, 2026

The BASIC TN1900 represents a medium-displacement hermetic reciprocating compressor engineered for low back pressure refrigeration applications. This Syrian-manufactured unit operates on R134a refrigerant with 220-240V 50/60Hz power supply, delivering 200-250W cooling capacity at -30°C to -10°C evaporating temperatures with RSIR motor technology
