

LG Inverter AC Error Codes: Indoor and Outdoor Unit Professional Guide

Category: Air Conditioner
written by www.mbsmpro.com | January 10, 2026

Indoor Unit	
1	Indoor unit room temperature sensor error
2	Indoor unit wall pipe sensor error
3	Indoor unit remote control error
4	Filter sensor error
5	Communication error between indoor and outdoor units
6	Indoor unit outdoor pipe sensor error
7	Indoor unit IPM error
8	Indoor unit BLDC fan motor lock
9	Indoor unit outdoor pipe sensor error
Outdoor Unit	
1	DC Peak alarm
2	DC Peak alarm
3	DC Peak alarm
4	DC Peak alarm
5	DC Peak alarm
6	DC Peak alarm
7	DC Peak alarm

98	DC Peak alarm
99	DC Peak alarm
100	DC Peak alarm

LG inverter air conditioner error codes give technicians a precise window into what is happening inside both indoor and outdoor units. From simple room temperature sensor faults to complex IPM and DC peak alarms, decoding these numbers correctly is critical for fast, safe, and accurate HVAC troubleshooting on modern LG split systems.
