

Samsung MSE4A1Q-L1G AK1, hermetic reciprocating refrigerator compressor

Category: Refrigeration

written by www.mbsmpro.com | January 10, 2026

The Samsung MSE4A1Q-L1G AK1 is a hermetic reciprocating refrigerator compressor designed for domestic LBP applications with R600a refrigerant and a nominal cooling capacity around 175-180 W at ASHRAE conditions, equivalent to roughly 1/4 hp. Engineers value this model for its efficient RSCR motor and robust design.
