

Table 100

Code	Meaning
E1	High Pressure Protection
E2	Low Pressure Protection
E3	High Pressure Protection
E4	Low Pressure Protection
E5	High Pressure Protection
E6	Low Pressure Protection
E7	High Pressure Protection
E8	Low Pressure Protection
E9	High Pressure Protection
F1	High Pressure Protection
F2	Low Pressure Protection
F3	High Pressure Protection
F4	Low Pressure Protection
F5	High Pressure Protection
F6	Low Pressure Protection
F7	High Pressure Protection
F8	Low Pressure Protection
F9	High Pressure Protection

Mastering Gree Multi VRF systems requires a deep understanding of their diagnostic language. From high-pressure protection (E1) to complex sensor logic (F1-F9), this comprehensive guide offers field-proven engineering insights to help technicians identify root causes, perform precise electrical checks, and ensure optimal system performance in commercial environments.
